Shanks Group plc wins 'Excellence in Reporting' at the PwC Building Public Trust Awards

Shanks Group plc was this week named as the winner of the 'Excellence in Reporting' in the FTSE 250 category at the PwC Building Public Trust Awards.

The accolade, now in its 10th year, is awarded to companies that provide detailed insight without unnecessary clutter and achieve a balance between the three pillars of reporting - content, quality and integration. In making their decision, judges reviewed Shanks' annual report and supporting year end reporting documents, available on the company's website.

Commenting on the award Peter Dilnot, Group Chief Executive of Shanks, said:

'We are delighted that our commitment to continually improve our corporate reporting has been recognised at these prestigious awards. At no time has building public trust been more important and we are extremely proud of this achievement'
