

## CONDITIONS FOR ACCEPTANCE

# PCB-containing oil

<b>EURAL code</b>	130301*
<b>Waste code</b>	013003

### DESCRIPTION

PCB-containing oil, pumpable at room temperature (e.g. Askarel).

### ADDITIONAL CONDITIONS

#### General conditions:

- No highly toxic products.
- No highly corrosive products.
- No polymerising, oxidising or reactive substances.
- No other waste streams that do not meet the conditions.

#### Packaging conditions:

- The waste product must be delivered in liquid drums of a capacity greater than 5 litres, which are in good condition and comply with ADR legislation.
- The packaging in which the waste product is delivered, including the pallets on which the waste product is stacked, will be regarded as lost packaging.
