EURAL code	070513*
Waste code	037009

DESCRIPTION

Narcotic drugs and psychotropic substances as defined in Royal Decree of 6/9/2017.

ADDITIONAL CONDITIONS

General conditions:

- Only narcotic drugs and psychotropic substances for destruction.
- No batteries.
- No products with a flashpoint < 100°C.
- No infectious substances.
- No needles.
- No mercury.

Specific conditions:

SYSTEM 1:

- Individual collection of narcotic drugs with Official Report (PV) drawn up by the Belgian Federal Agency for Medicinal and Health Products (FAMHP).
- A copy of this PV will be sent to Renewi beforehand. The original PV will be handed over on collection.

SYSTEM 2:

- Centralised collection from pharmacies via an Association of Pharmacists.
- Narcotic drugs must be accompanied by an inventory fully completed and signed, containing the following details as a minimum:
 - Name and address of pharmacy
 - Name and signature of the principal pharmacist
 - Date of signature
 - Qualitative and quantitative description of the medicines
- This inventory must be affixed to the box and 2 copies of it given to the driver.
- The principal pharmacist must be present at the time of collection, to sign the collection document

Packaging conditions:

- The waste must be delivered in closed drums or cardboard boxes.
- The packaging of the narcotic drugs with PV must be sealed by the FAMHP. This seal must not be broken.
- The dimensions of the boxes and drums are:
 - Height: between 0.25 and 0.95 m
 - Diameter (diagonal for boxes): between 0.2 and 0.65 m
- The max. weight per drum is 50 kg and per box 20 kg.
