| <b>Waste code</b> | 015031            |

### DESCRIPTION

Paint, ink, glue and resin waste in small packaging, with the maximum volume of the paint cans being 30 l.

### ADDITIONAL CONDITIONS

#### Parameters:

- Chlorine: < 1%
- Flashpoint > 21°C

#### General conditions:

- The paint may be both water-based and solvent-based.
- Cleaning cloths, paintbrushes etc. may not constitute more than 5% of the total volume.
- No heavy, solid materials (such as large concrete blocks).
- No metal objects (such as bits of iron) larger than 5 cm or of a thickness that may damage the shredder blades (such as bolts).
- No liquids.
- No pressurised containers such as spray cans and gas cylinders.
- No monomers of two-component glue, resin and putty.

#### Packaging conditions:

- The maximum height of the stacked paint cans is 1 metre.
