

CONDITIONS FOR ACCEPTANCE

Paint, ink, glue and resin waste according to recovery

EURAL code	080113* - 080111*
Waste code	015023

DESCRIPTION

Paint, ink, glue and resin waste in drums of a minimum capacity of 60 l.

ADDITIONAL CONDITIONS

Parameters:

- pH: 4 to 14
- Chlorine: < 0.5%
- Free water: < 20%
- Flashpoint: > -10°C
- PCB: < 50ppm
- Mercury: < 5 ppm
- Sulphur: < 10%
- Heavy metals: limited

General conditions:

- No micro-dust or powdery waste
- No substances that cause a strong odour nuisance (such as amines, amides, butyric acid, mercaptans and styrene)
- No lachrymatory products
- No waste that may form toxic fumes or cause polymerisation on incineration or due to an interaction
- No highly toxic products
- No highly corrosive products
- No spray cans or pressure receptacles
- No free cyanides or isocyanates
- No non-polymerised silicones
- No solid metal parts (> 5 mm. thickness)
- No non-crushable objects
- No ceramic or metal balls
- No glass

Packaging conditions:

- Packaging must be able to be emptied by gravity
- Drums must be in good condition, fully closed and at least half-full
