

CONDITIONS FOR ACCEPTANCE

PD Companies

DESCRIPTION

PD is a waste stream that consists of a mix of used packaging from companies based in the Netherlands that has been emptied by means of shaking, pouring or scraping, consisting of plastic and/or drink cartons.

CONDITIONS

PD companies waste must be presented as follows:

- In a wheelie bin or container, preferably in PD bags
- The PD bags must be transparent in order for the PD waste to be approved. Opaque bags will be grounds for rejection.
- The container must be at least 85% full, and must be emptied at least once a month

Renewi prefers orange transparent bags. These can be ordered from Renewi.

Permitted

P: Plastic packaging bottles

- Bottles for water, soft drinks, milk, fruit and vegetable juice, oil and vinegar
- Squeeze bottles, cups, jars, bags and tubs for food
- Bottles for detergents, shampoo and soap
