

## CONDITIONS FOR ACCEPTANCE

# Chlorinated solvents

<b>EURAL code</b>	070103* - 140602*
<b>Waste code</b>	013001

### DESCRIPTION

Chlorinated solvents in packaging of a capacity greater than 5 l. and fully pumpable at room temperature.

### ADDITIONAL CONDITIONS

#### Parameters:

- pH > 5
- chlorine < 25%
- sediment < 1%
- PCB < 50 ppm
- calorific value > 10,000 kJ/kg
- mixable with other chlorinated solvents

#### General conditions:

- No corrosive or highly toxic products (such as dichlorodimethyl ether).
- No peroxides.
- No polymerising, oxidising or reactive substances.
- No foreign objects (such as wood, stone, glass, rags, plastic lids or metal parts).
