

## CONDITIONS FOR ACCEPTANCE

# Isocyanates - MDI

<b>EURAL code</b>	080501*
<b>Waste code</b>	003001

### DESCRIPTION

Liquid and solid isocyanates based on methylene diphenyl diisocyanate (MDI)

### ADDITIONAL CONDITIONS

#### General conditions:

- Only MDI
- No TDI
- No other waste streams that do not meet the conditions

#### Specific conditions:

- The chemical name of the waste is clearly indicated on each package
- No PUR spray cans or gas bottles

#### Packaging conditions:

- The maximum weight of MDI in small packaging is 15 kg per drum
- The waste is packed in drums that are in good condition and that comply with ARAB and ADR legislation.
- The drums are delivered on a pallet and are securely bound
- The drums/cans are not stacked
- The packaging in which the waste is delivered, including the pallets on which the waste is stacked, will be regarded as lost packaging.
