

CONDITIONS FOR ACCEPTANCE

Mixed scrap metal

DESCRIPTION

Scrap metal discarded at e.g. municipal yards, recycling centres, waste collectors and commercial operations that is directly suitable for reuse.

Permitted

- Any ferrous metals
- non-ferrous metals with thickness > 0.5 mm, alloyed parts (copper, aluminium, stainless steel, etc.) <10 v%
- Galvanised (or zinc-plated) <10 v%
- Cast iron
- Barrels (iron) will only be accepted when stripped of hazard labels (or made completely illegible) and rinsed and/or scraped clean
- Painted or untreated iron

Prohibited

- AEEA/WEEE waste electrical and electronic equipment
- Hazardous waste
- Construction and demolition waste
- Commercial waste
- Gas bottles, LPG tanks, fuel containers, pressurised cylinders
- Radioactive substances and substances emitting ionizing radiation and materials that have been exposed to such radiation and are expected to emit such radiation
- Materials containing asbestos or suspect asbestos-containing materials
- Waste that causes unacceptable problems during loading, unloading and handling, such as odour nuisance, dusty and powdery waste, burning or smouldering wastes, liquids, pasty substances, etc.
- Barrels and paint cans with residual contents and hazard labels
- Transformers and capacitors (containing PCBs)
- Refrigerators
- Safes and vaults
- Ammunition and explosives
- Batteries and car batteries
- (Car) tyres

** If, upon delivery, deviations are found from the described conditions, Renewi Nederland B.V. reserves the right to refuse the consignment in question or to accept it according to amended conditions.*

*** Your obligation and opportunity to separate can be found in the National Waste Management Plan (LAP)*
